Our Homeland's Residents Supports the Clarification of the Chinook Indian Nation's Status!

Our local community has always been proactive in their support for our Nation. Driven from near constant feedback from our non-Native neighbors, asking what they can do to help, post cards to President Obama were created that they could sign. Showing photos of our community youth and containing a simple message of support, hundreds of Native and non-Native community members have signed these to show their support for an Executive Order to clarify the status of the Chinook Indian Nation.
